The following is an examiner's statement of reasons for allowance: The claims are allowable over Tsuge because Tsuge doesn't show or make obvious radiation curable polyurethanes made from a combination of high and low molecular weight polyols or from polybutylhexyl adipate. Tsuge doesn't disclose removing less than 0.1 wt. % of unreacted diisocyanate from the prepolymer or show the same range of NCO/OH ratios for preparing the prepolymer, and he doesn't show at least 80 wt. % of the prepolymer having the ABA structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
